3 HackerRank is the best place to learn and practice coding!

```
22 function main() {
23     var i = 4
24     var d = 4.0
25     var s = "HackerRank "
26     // Declare second integer, double, and String variables.
27
28     // Read and save an integer, double, and String to your variables.
29     let input_int = parseInt(readLine());
30     let input_double = parseFloat(readLine());
31     let input_string = readLine();
32     // Print the sum of both integer variables on a new line.
33     console.log(i + input_int);
34     // Print the sum of the double variables on a new line.
35     console.log((d + input_double).toFixed(1));
36     // Concatenate and print the String variables on a new line
37     // The 's' variable above should be printed first.
38     console.log(s + input_string);
39 }
